WHO ARE WE?

BirdLife Northern Queensland

is a branch of the national organisation BirdLife Australia, formed in 2012 by the merger of Birds Australia and BOCA.

BirdLife Northern Queensland organizes both scientific and social activities. These include bird surveys, outings, workshops and presentations with guest speakers. The regular field trips and campouts cater for all levels of expertise from beginner to professional and emphasise fun as well as worthwhile conservation projects.

Members receive a quarterly newsletter *Contact Call* detailing local activities and also enjoy *BirdLife Australia* magazine dealing with national bird issues.

This is a list of all birds recorded in 'Northern Queensland'. This area is defined as stretching from Ayr in the East, across to Mt Isa and the Northern Territory border in the West, and up to Boigu and Sabai Islands, just off the coast of New Guinea, in the North. The list includes residents, migrants, visitors, pelagic (ocean) species & all vagrants approved by the Birds Australia Rarities Committee ("BARC"). Names and taxonomic order follow *Systematics and Taxonomy of Australian Birds* by L Christidis and W E Boles (CSIRO, Melbourne, 2008).
