## 231 species

E - Wet Tropics endemics  
I - Introduced birds

List by members & friends of BirdLife. It includes residents, seasonal migrants, and regular and irregular visitors. Species marked "R" are rare sightings reviewed by national or state level Rarities Committees. Names and taxonomic order follow *Systematics and Taxonomy of Australian Birds* by L Christidis and W E Boles (CSIRO, Melbourne, 2008).

## Facilities

The 2-storey bird hide has panoramic views across part of the Swamp and neighbouring hills, and is part of the Queensland Heritage Trails Network. Birds Australia was instrumental in creation of the hide which includes displays featuring the Swamp's birdlife and history. The lower storey has wheelchair access. There are toilets, some parking and a grassed area but no outdoor tables.

# WHO ARE WE?

## BirdLife Northern Queensland

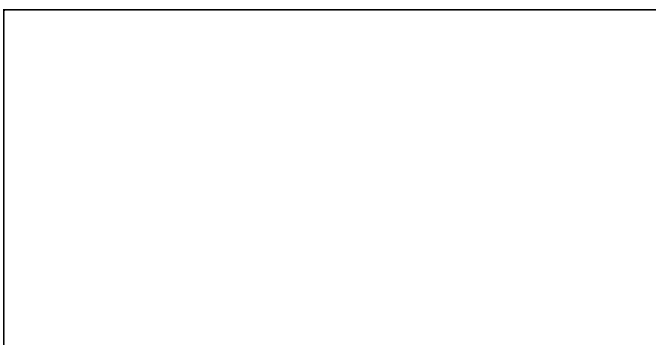

is a branch of the national organisation BirdLife Australia, formed in 2012 by the merger of Birds Australia and BOCA.

BirdLife Northern Queensland organizes both scientific and social activities. These include bird surveys, outings, workshops and presentations with guest speakers. The regular field trips and campouts cater for all levels of expertise from beginner to professional and emphasise fun as well as worthwhile conservation projects.

Members receive a quarterly newsletter *Contact Call* detailing local activities and also enjoy *BirdLife Australia* magazine dealing with national bird issues.

You can join BirdLife Australia and help the conservation of Australian birds at [www.birdlife.org.au](http://www.birdlife.org.au)

# INFORMATION

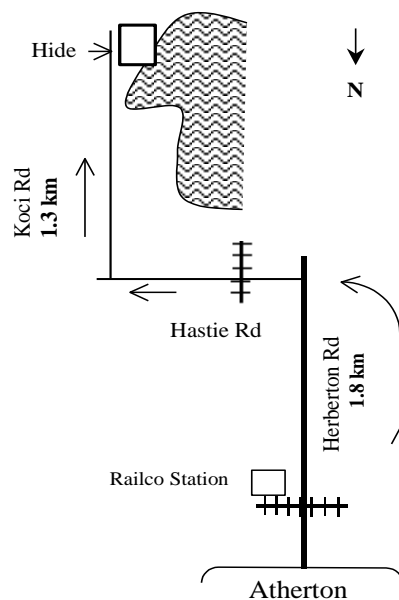

*Hasties Swamp* is an important remnant of the once extensive Nyleta Wetlands, now mainly cleared.

Aquatic habitats include open water, reeds, muddy edges and sedgeland: their proportions change as the swamp follows its annual cycle of wet and dry. The surrounding woodland contains patches of wet eucalypt and rainforest, linking Hasties Swamp with larger forests nearby. The varied habitat attracts a wide range of resident and migrant birds. Birding highlights can include large numbers of waterfowl, roosting Sarus Cranes (winter - Dry season) and occasional rarities. Around 57 ha of the Swamp is protected as National Park.

## Location

17°17'17.5"S 145°28'29.8"E (AUS 84)

## 3km S of Atherton

From Atherton drive south along Herberton Road.

Cross the railway line at Platypus Park and Railco Station, pass the Chinese Temple, continue 1.8 km then turn left into Hastie Rd.

Recross the rail line, turn right into Koci Road (gravel), continue 1.3 km to the Bird Hide.
