# WHO ARE WE?

## BirdLife Northern Queensland

is a branch of the national organisation BirdLife Australia, formed in 2012 by the merger of Birds Australia and BOCA.

BirdLife Northern Queensland organizes both scientific and social activities. These include bird surveys, outings, workshops and presentations with guest speakers. The regular field trips and campouts cater for all levels of expertise from beginner to professional and emphasise fun as well as worthwhile conservation projects.

Members receive a quarterly newsletter *Contact Call* detailing local activities and also enjoy *BirdLife Australia* magazine dealing with national bird issues.

You can join BirdLife Australia and help the conservation of Australian birds at

## LIST ANNOTATIONS

**C=Common**      Likely to be recorded on most visits  
**U=Uncommon**    Recorded regularly but not every visit  
**R=Rare**         Recorded infrequently  
**L=Local**         Localised sites only

**h=More often heard than seen**  
**M=Migrant from the North (approx Oct-Mar)**  
**E=Wet Tropics Endemic**

**Definition:** The C/U/R annotations in this list give an indication of how easy or difficult it might be to find a species. They indicate the likelihood that an experienced birder might record the species, during a day bird-watching, at the right time of year, in the appropriate habitat.

# INFORMATION

**Cooktown district** covers an area in the north from the boundary of Lakefield National Park on the Normanby River south to Cooktown, inland to West Normanby River, and south to the Bloomfield River. Cooktown is at the junction of three distinct ecoregions, the Wet Tropics rainforest, Cape York Peninsula, and the Einsleigh uplands. The bird species thus include a mix from these three regions, with several endemics. The many habitats include coastal beaches and mangroves, freshwater swamps, dams and lagoons, creeks and rivers, melaleuca woodland, dry eucalypt woodland, wet sclerophyll, upland and riverine rainforests.

**Parks and reserves:** Endeavour River National Park, Endeavour River Falls, Mt Webb, Mt Cook National Park, Keatings Lagoon, Wet Tropics World Heritage Area.

**Areas of interest:** Endeavour River estuary, Botanic Gardens and Finch Bay, Archer Point, McIvor River Crossing, Cooktown Scenic Rim walking tracks, Elim Beach and Coloured Sands, Mt Misery, Mt Finnegan, Bloomfield River Falls, China Camp, Weary Bay.
